

ALKYD PAINT 1212

Product Description:

Type:

Gloss Enamel 1212 is a premium quality solvent-based finish formulated from high-grade synthetic alkyd resins, lightfast pigments, and selected additives to provide a smooth, high-gloss finish with excellent durability, color retention, and weather resistance. It is suitable for both interior and exterior applications on properly prepared surface.

Usage:

Recommended for decorative and protective coating of metal, wood, and properly primed masonry surfaces, including doors, windows, railings, furniture, steel structures, and general architectural applications.

Key Features:

1. Excellent gloss retention
2. Smooth and durable finish
3. Superior hiding power
4. Excellent adhesion
5. Good weather resistance
6. Good abrasion resistance
7. Excellent color retention
8. Easy application
9. Interior and exterior use

SURFACE PREPARATION:

Surfaces must be clean, dry, and free from dust, grease, oil, rust, loose particles, and contaminants. Apply a suitable primer before the finishing coats.

Application Method:

Stir thoroughly before use. Apply two coats by brush, roller, or conventional spray over a properly prepared and primed surface, allowing sufficient drying time between coats.

ALKYD PAINT 1212

Product Properties:

| | |
|-------------------------|--|
| Finish | High Gloss |
| Color | 12 color |
| Specific Gravity | 1.15 ± 0.05 |
| Solid Content | 55 ± 3 % |
